RE: Application of BellSouth Telecommunications Inc. to Provide In-Region
InterLATA Services Pursuant to Section 271 of the Telecommunications
Act of 1996
Docket No. 2001-209-C

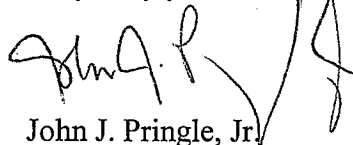

Dear Mr. Terreni:

Enclosed is the **Objection of CompSouth to AT&T's Declaration of Force
Majeure Event** for filing on behalf of the Competitive Carriers of the South, Inc.
("CompSouth") in the above-referenced docket. By copy of this letter, I am serving all parties of
record in this proceeding and enclose my certificate of service to that effect.

If you have any questions or need additional information, please do not hesitate to
contact me.

With kind regards, I am

Very truly yours,

John J. Pringle, Jr.

**BEFORE THE
SOUTH CAROLINA PUBLIC SERVICE COMMISSION**

IN RE:

Application of BellSouth
Telecommunications, Inc. to
Provide In-Region InterLATA
Services Pursuant to Section 271 of the
Telecommunications Act of 1996

DOCKET NO. 2001-209-C

**OBJECTION OF COMPSOUTH TO
AT&T'S DECLARATION OF FORCE MAJEURE EVENT**

Competitive Carriers of the South, Inc. ("CompSouth"), through its undersigned counsel, pursuant to section 4.5.2.2 of the Self-Effectuating Enforcement Mechanism (SEEM) plan approved by the Commission, hereby file this Objection to BellSouth Telecommunications, Inc. d/b/a AT&T South Carolina d/b/a AT&T Southeast's (AT&T) declaration of a Force Majeure Event related to an incident in its St. Louis data center occurring on December 6, 2008. For the reasons set out below, the Commission should find that AT&T did not provide proper notice of this event, that this event was not a Force Majeure Event, and that AT&T should be required to make all payments required under the SEEM plan. As grounds therefor, CompSouth states:

Background

1. In 2001, the Commission opened 2001-209-C to consider AT&T's entry into the interLATA long distance market and to develop permanent performance metrics for the evaluation of the operations support systems ("OSS") of AT&T. The Commission issued Order No. 2002-77 on February 14, 2002 delineating performance requirements and approving the SEEM plan. This docket has remained open since that time to address issues and concerns arising from OSS performance.

2. CompSouth is an association of competitive local exchange carriers ("CLECs"). CompSouth is comprised of Access Point, Inc., Birch Communications (fka Access Integrated

Networks, Inc.), Cavalier Telephone, Cbeyond Communications, Covad Communications Company, Deltacom, Level 3 Communications, Momentum Telecom, Inc., NuVox Communications, Inc., Sprint Nextel, tw telecom, Inc., and XO Communications, Inc.

The members of CompSouth are customers and competitors of AT&T in South Carolina and across the Southeast.

3. On February 10, 2008, AT&T filed a letter with the Commission notifying it that it declared a Force Majeure Event pursuant to an incident in its St. Louis data center occurring on December 6, 2008 and that it did not intend to make SEEM payments for certain SQM measures which it was unable to meet from December 8 – 12, 2008. The letter is attached hereto as **Exhibit One**.

4. CompSouth contends that this event was not properly noticed as required by the SEEM plan and that it does not meet the SEEM plan requirements for a Force Majeure Event.

AT&T Failed to Give Prompt Notice as the SEEM Plan Requires

5. Force majeure events are addressed in section 4.5 of the SEEM plan. Specifically, section 4.5.2 requires AT&T to give the Commission and CLECs “prompt” notice of a force majeure event. This section provides:

BellSouth, upon giving *prompt notice* to the Commission and CLECs, shall be excused from such performance on a day-to-day basis to the extent of such prevention, restriction, or interference. . . . (Emphasis added).

6. Section 4.5.2.1 of the SEEM plan states:

To invoke the application of Section 4.5.2 (Force Majeure Event), BellSouth will provide written notice to the Commission and post notification of such filing on BellSouth’s website wherein BellSouth will identify the Force Majeure Event, the affected measures, and the impacted wire centers including affected NPAs and NXXs.

7. In this instance, AT&T failed to comply with sections 4.5.2 and 4.5.2.1 of the SEEM plan because it did not give prompt notice of the alleged force majeure event.

8. The event in question occurred in AT&T's St. Louis data center on *December 6, 2008*. On December 10, 2008, AT&T provided an Accessible Letter "apprising" CLECs of the event. On December 11, 2008, AT&T sent the Commission a letter "as information" regarding the St. Louis power outage.¹ Nothing further was heard from AT&T on this matter until *February 10, 2009* - over two months later -- when AT&T declared a force majeure event.

9. Merriam-Webster's Dictionary defines "prompt"² as "being ready and quick to act as occasion demands" or "performed readily or immediately." A two-month delay in providing notice of a force majeure event cannot, under any set of imaginable circumstances or any reasonable definition, be equated with the "prompt" notice the SEEM plan requires for a force majeure declaration.

10. AT&T has provided absolutely no reason for such an extraordinary delay in declaring a force majeure event.

11. Interestingly, it appears that AT&T did not declare this incident to be a force majeure event until *after* it calculated the SEEM payments that would be due as a result of its failure to comply with the applicable SQMs. This can be seen by reviewing the timeframe for SEEM payments related to this event.

12. Section 4.4.1 of the SEEM plan provides that AT&T must remit SEEM payments on the day on which the final validated SEEM reports are posted in accordance with section 2.4 of the SEEM plan.

¹ Neither of these communications complies with or comprises the notice required by sections 4.5.2 and 4.5.2.1. Section 4.5.2.1 requires AT&T to "identify the Force Majeure Event, the affected measures, and the impacted wire centers, including affected NPAs and NXXs." This required information was not provided until AT&T's February 10th letter.

² The word "prompt" must be given its plain and ordinary meaning. *See, e.g., Lacke v. Lacke*, 362 S.C. 302, 308, 608 S.E.2d 147, 150 (S.C.App. 2005) The dictionary supplies the ordinary meaning of words. *See, e.g. Estate of Nicholson ex rel. Nicholson v. South Carolina Dept. of Health and Human Services*, 377 S.C. 590, 596, 660 S.E.2d 303, 305 (S.C.App. 2008) (citing *Lee v. Thermal Engineering Corp.*, 352 S.C. 81, 91-92, 572 S.E.2d 298, 303 (S.C.App. 2002)).

13. Section 2.4 provides that final validated SEEM reports will be posted on the 15th of the month following the posting of the final validated SQM reports for that data month. Section 2.3 provides that final SQM reports will be posted no later than the last day of the month following the date month in which the activity occurred.

14. Thus, in this case, the final validated SQM report for the December 6, 2008 event was posted on January 31, 2009 and the SEEM payment related to that event was due on February 15th. It is highly suspect that the declaration of the force majeure event did not occur until right before AT&T would have to make the SEEM payment for an event occurring over two months ago.

The St. Louis Outage Does Not Qualify as a Force Majeure Event

15. According to AT&T's February 10th letter, a water main break outside of AT&T's data center in St. Louis resulted in a flood that caused a power outage in the data center. AT&T claims that this water main break was "unforeseeable" and could not have "been anticipated or prevented by AT&T" AT&T February 10, 2009 letter to Charles L.A. Terreni at Page 1. CompSouth strongly disagrees.

16. Section 4.5.2 of the SEEM plan defines a force majeure event, in part, as one that prevents AT&T from complying with the SQM/SEEM plan because it is "beyond the reasonable control and without the fault or negligence of (BellSouth) [AT&T]."

17. AT&T's attempt to label the event a "flood" does not on its own make the December 6th incident a force majeure event. As explained below, not only was the "flood" foreseeable, it appears that it was a power outage that prevented AT&T from meeting the SQM standards. This outage was caused by AT&T's failure to properly plan for such a foreseeable event.

18. The likelihood that a basement may flood is certainly a foreseeable event. Most people would agree that a basement flood is likely to incur in any number of scenarios, including

instances of heavy rain or snow as well as when a water main breaks. And if electrical equipment is kept in the basement, it is certainly foreseeable that such equipment might be affected.

19. CompSouth understands that the reason that the power to the building failed (the actual cause of the outage) was not because of the water but because AT&T could not isolate the equipment in the basement affected by the water main break and therefore had to turn off the power to the *entire* building.

20. Had AT&T had the proper procedures in place, it could have quickly isolated the equipment in the basement. In that instance, AT&T would not have been required to shut down power to the entire building. AT&T's failure to properly plan for power outages, which are certainly common, foreseeable events, does not qualify as a force majeure event. AT&T's failure to anticipate and appropriately react to a power outage is not a force majeure event.

21. Finally, AT&T's failure to have redundancy in place so as to deal with power outage situations is also simply a case of poor planning, not a force majeure event. CompSouth understands that AT&T is now addressing redundancy requirements in its data centers.

AT&T's Force Majeure Declaration is Not Presumptively Valid

22. Section 4.5.2.3 of the SEEM provides that AT&T's invocation of the force majeure provision in section 4.5.2 shall be presumptively valid 30 days after notice is provided in accordance with section 4.5.2.1. As discussed above, such notice was not provided in accordance with the SEEM plan. Therefore, AT&T's force majeure declaration is not presumptively valid and should not automatically go into effect.

23. Furthermore, section 4.5.2.1 also provides that the Commission "may require BellSouth to provide a true-up of SEEM fees to affected carriers if a Force Majeure declaration is found to be invalid by the Commission after it has taken effect."

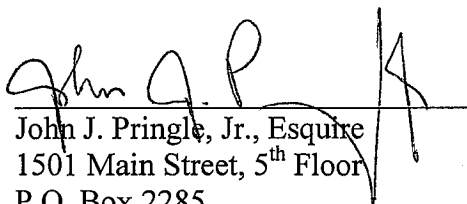

24. AT&T stated in its February 10th letter that it "will not make any SEEM payments associated [with the listed measures] on the dates identified herein." AT&T February 10, 2009 letter to Charles L.A. Terreni at Page 2.

25. The Commission should further investigate this event and should not permit AT&T to withhold any SEEM payments.

WHEREFORE, the Commission should enter an order:

1. finding that AT&T failed to give prompt notice regarding its declaration of a force majeure event as required by the SEEM plan;
2. finding that The St. Louis outage is not a force majeure event as it was foreseeable and the result of AT&T's poor planning and procedures;
3. requiring AT&T to make the payments under the SEEM plan; and
4. granting such other relief as is just and proper.

Respectfully submitted,

John J. Pringle, Jr., Esquire

Re: Application of BellSouth Telecommunications, Inc. to Provide In-Region
InterLATA Services Pursuant to Section 271 of the Telecommunications Act of
1996
Docket No. 2001-209-C

Dear Mr. Terreni:

As previously noted in the correspondence and Accessible Letter filed in this docket on December 17, 2008, an unforeseeable water main break that occurred outside of AT&T's data center in St. Louis, Missouri resulted in flooding that caused a power outage in the data center ("the outage"). The outage occurred on December 6, 2008, and impacted AT&T's retail and wholesale operations throughout its 22-state region. The outage, which could not have been anticipated or prevented by AT&T, interfered with AT&T's ability to process orders that are handled in the St. Louis data center. As it relates to performance that is measured by the SQM/SEEM Plan, the outage prevented AT&T from meeting the performance standards associated with two ordering metrics – specifically the ordering measures known as Reject Interval ("RI") and Firm Order Confirmation Timeliness ("FOCT").

Accordingly, pursuant to Section 4.5.2 of the SEEM Plan,¹ BellSouth Telecommunications, Inc. d/b/a AT&T South Carolina ("AT&T South Carolina") hereby declares the outage a Force Majeure Event that prevented AT&T South Carolina from meeting the performance standards associated with the RI and FOCT measures on the following dates:²

¹ SEEM Plan, Section 4.5.2 provides in relevant part that AT&T "shall not be obligated to pay Tier-1 or Tier-2 Enforcement Mechanisms (SEEM payments) for non-compliance with a performance measurement if such non-compliance was the result of any Force Majeure Event that either directly or indirectly prevented, restricted, or interfered with performance as measured by the SQM/SEEM Plan." Section 4.5.2 specifically identifies a flood as a Force Majeure Event.

² Because of AT&T's restoration and recovery efforts, the outage impacted AT&T's performance for a limited duration. Accordingly, the requirements of SEEM Sections 4.5.2.4 and 4.5.2.5 are not applicable.

The Honorable Charles Terreni
February 11, 2009
Page Two

- FOCT Fully Mechanized – December 8 and 9, 2008
- FOCT Partially Mechanized – December 8, 9, 10, 11, and 12, 2008
- RI Fully Mechanized – December 8, 2008
- RI Partially Mechanized – December 8, 9, 10, and 11, 2008

Enclosed with this filing are two documents which demonstrate the impact – on a nine-state southeast regional basis the outage had on the above-mentioned ordering measures. Because the Force Majeure Event prevented AT&T from meeting the performance standards associated with these measures on the dates identified herein, AT&T will not make any SEEM payments associated with such measures on the dates identified herein.

Sincerely,

A handwritten signature in black ink, appearing to read "Patrick W. Turner". The signature is fluid and cursive, with a long horizontal stroke extending from the end.

Patrick W. Turner
